Kathy,

There are some template letters to 106 consultation parties at the end of the attached draft U.S. Forestry Service programmatic agreement.

I will do my best to get POCs and addresses for the three tribes and the state SHPO.

Thanks,

Matt

Hi Matt,

I'm not sure what is the status of this issue, but I went ahead and check a few things for you. This info might or might not be useful for you.

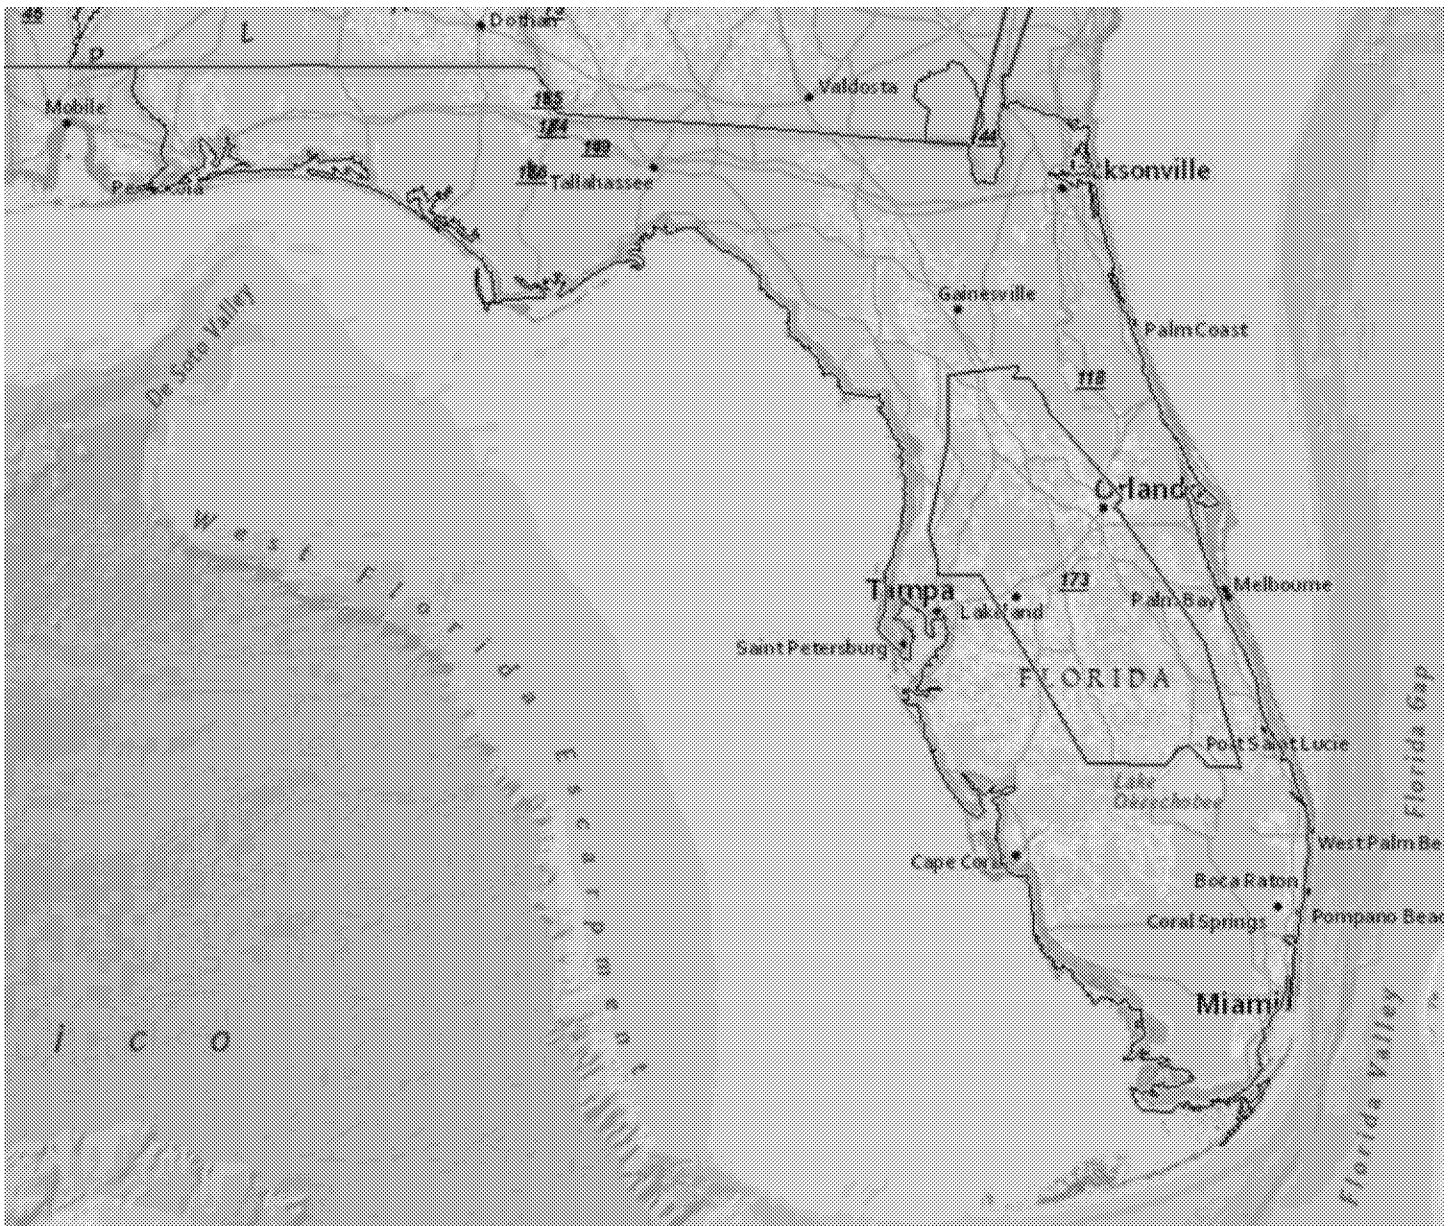

I'm attaching the draft PA from the Forest Service. This could help you see what the important things are to consider if doing a PA is what you are looking to do. One thing to consider: their PA took much longer because it is a national document.

Also, if a PA option seems to you a strong one, then for sure you need to inform the tribes rather quickly and explain them the process to see their reactions and suggestions. It's better to know what they think of it now, before you start working on it.

I'll let you know what is the status of the FS PA as soon as I know.

See below the FL map with the tribal lands just as FYI.

Best,
Maria

Subject: NHPA Issue

Maria,

Not sure if Mark reached out to you but the ORC and Water Division team that is working on the Florida 404 assumption matter could really use your help on an NHPA issue that has come up. I'd like to chat this afternoon if you have time or early next week about any experience you have with programmatic 106 consultations. If you haven't dealt with these, your general knowledge of NHPA could be really beneficial as we work through this issue.

Please let me know if there's a good time for you and I'll send an invite.

Thanks,

Matt
